

Strategic Objectives

Prioritise teaching & learning with students at the centre of our decision making

Value our people as positive, skilled and empowered, making real impact on learner outcomes

Embed robust quality & performance measures into our everyday practice

Engage collaboratively with all stakeholders in pursuit of our joint endeavours

STUDENTS FIRST | REWARDING | INSPIRING | EXCELLENT SERVICE | EXCEEDING EXPECTATIONS

[Appendix 4: Current Post Holders' Names](#)

1. Purpose of Procedure

- 1.1. The welfare of a child is paramount. All children regardless of age, gender, culture, race, ability, sexual identity or religion have equal rights to protection, safeguarding and opportunities.

2. Context

- 2.1. The Guernsey Institute: College of Further Education (TGI College) recognises that children can be some of the most vulnerable members of society. Safeguarding children is everyone's responsibility, but education establishments and the people who work within them have particularly important roles to play. These include:
 - 2.1.1. Proactively working to prevent harm and abuse
 - 2.1.2. Responding to concerns if they arise and supporting the children involved
 - 2.1.3. Sharing information and cooperating with other agencies.
- 2.2. TGI College is committed to safeguarding and promoting the welfare of all of its students, and this commitment is woven through everything that it does. At all times, the best interests of the child must come first.
- 2.3. The Children (Guernsey and Alderney) Law 2008 requires all States employees (and everyone else working with children) to work together and share information to ensure children and young people get the services they need to achieve or maintain a reasonable standard of health or development. The Islands Safeguarding Children Partnership (ISCP - A multi-agency committee with representatives from the public, private and voluntary sectors, which was given legal status in the Children (Guernsey and Alderney) Law, 2008) has established extensive guidance (<http://iscp.gg>) to promote effective coordination and cooperation between agencies providing services to children and families, which must be followed by all people working in education establishments in Guernsey and Alderney, whether paid or unpaid.
- 2.4. This policy has been written with reference to ISCP guidance and to good practice, as set out in English guidance document 'Keeping Children Safe in Education' (KCSIE). This policy sits alongside other policies that relate to specific areas of college life with safeguarding and wellbeing elements.

3. Aims

- 3.1. This policy is intended to:
 - 3.1.1. Ensure all members of staff (and volunteers) at TGI College are aware of their roles and responsibilities around safeguarding and protecting children from harm; know how to recognise abuse and know what to do if they have concerns
 - 3.1.2. Show how TGI College works with other agencies to keep children safe
 - 3.1.3. Highlight other policies that have a particular role in TGI College's wider approach to keeping children safe
 - 3.1.4. Ensure that parents/carers are aware of college processes, roles and responsibilities.

4. Key Definitions

- 4.1. Safeguarding and promoting the welfare of children means:
 - 4.1.1. Protecting children from maltreatment
 - 4.1.2. Preventing impairment of children’s mental and physical health or development
 - 4.1.3. Ensuring that children grow up in circumstances consistent with the provision of safe and effective care, and
 - 4.1.4. Taking action to enable all children to have the best outcomes

This definition is based on that in England’s Department for Education’s Statutory Guidance document, ‘Keeping Children Safe in Education’.
- 4.2. Child protection is the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm
- 4.3. Child is a person under the age of 18
- 4.4. A child ‘in need’ is as defined in Appendix 3
- 4.5. A child ‘at risk’ is as defined in Appendix 3.
- 4.6. Victim is used in some places, as it is a widely recognised and understood term. However, some children who have been subjected to abuse may not consider themselves to be a victim, or want to be described as one. When actively managing an incident, College will try to use a term that the child is comfortable with.
- 4.7. Alleged Perpetrator / Perpetrator are used in some places, as they are widely-used and understood terms. However, in actively managing cases, it may be more appropriate to use other terms, for example where the behaviour may have been harmful to the perpetrator as well.

5. Accountabilities

- 5.1. The Principal is accountable for the safeguarding of learners registered at TGI College, including ensuring (through delegation to the Director of Student Support) that suitable arrangements are in place while learners are engaged in off-site and out-of-hours educational activities arranged or endorsed by the College. The Principal is accountable for implementation of this policy within college (delegating to the Director of Student Support), including ensuring information is presented, as appropriate, to the Education Office, College Governance Board and the ISCP, so those bodies can maintain a view of safeguarding practice.
- 5.2. The Head of Inclusion and Services for Children & Schools is the Lead Child Protection Officer within the Education Office (the ELCPO) and oversees safeguarding and child protection across schools and services, reporting to the Committee for Education, Sport and Culture (ESC).

6. Responsibilities

6.1. Specific responsibilities within college are as follows. Some are talked about more, later in this document.

6.2. All college staff (teaching and non-teaching), and volunteers

All college staff and volunteers are responsible for playing their part in safeguarding and promoting the welfare of children, including:

- 6.2.1. Acting professionally at all times, in line with Codes of Conduct
- 6.2.2. Endeavouring to ensure a safe environment in which children can learn. This includes acting to report/manage (as appropriate) any observed risks to health and safety posed by either the physical environment, or actions of adults or children
- 6.2.3. Undertaking child protection and safeguarding training appropriate to their role
- 6.2.4. Being familiar with this policy, and other policies and systems that are of particular relevance to safeguarding, as appropriate to their role
- 6.2.5. Being aware of signs and indicators of abuse and neglect, as well as specific safeguarding issues
- 6.2.6. Reporting, recording and passing any concerns or suspicions to the DSL as soon as possible, no matter how trivial they may seem; not assuming that someone else will act instead
- 6.2.7. Listening to children if they disclose a safeguarding issue
- 6.2.8. Maintaining an appropriate level of confidentiality
- 6.2.9. Raising any concerns they may have about college's safeguarding practice or about particular members of staff/volunteers
- 6.2.10. Supporting any (ongoing) action that might be appropriate, including working in partnership with other agencies, with the aim of improving the child's situation.

6.3. The Principal is responsible for:

- 6.3.1. Ensuring there is an effective College Safeguarding and Child Protection (S&CP) Policy, which is subject to annual review, and other related key policies and systems
- 6.3.2. Ensuring that a senior member of college staff is designated as the lead for safeguarding and child protection within the college - the Designated Safeguarding Lead (DSL), with deputy DSL (or Progress Coaches) as appropriate to ensure cover for absence or any out of hours/out of term activities, etc. It is good practice that these roles are explicit in the holder's job description, and the DSL/deputy DSL should be clear about what the role involves
- 6.3.3. Ensuring the Safeguarding Team has the time, funding, training and resources to do their duties properly
- 6.3.4. Ensuring all staff, casual supply workers, volunteers and visitors (such as representatives of agencies coming in to college to support education/children at Guernsey College, and

contractors) receive safeguarding and child protection induction, information and training appropriate to what they are doing in college

- 6.3.5. Ensuring that volunteers and visitors, etc are signed in/out and supervised as appropriate in college, in line with Education Services' policy
 - 6.3.6. Ensuring opportunities are taken across the curriculum to teach children about safeguarding and to develop the skills they need to recognise danger and know how and where to seek help. This includes (but is not limited to) the delivery of effective Personal, Social, Health and Citizenship education (PSHCE), online safety and relationship education through the Personal Development Programme (PDP) appropriate to the needs of students
 - 6.3.7. Ensuring effective pastoral care systems
 - 6.3.8. Ensuring that relevant staffing ratios are met as appropriate, which may in some circumstances require the college to undertake a risk assessment
 - 6.3.9. Acting as the 'Case Manager' if an allegation of abuse is made against another member of staff or volunteer, where appropriate
 - 6.3.10. Designating a staff member to lead on Special Educational Needs and Disabilities (SEND)
 - 6.3.11. Designating a staff member to promote the educational achievement of Children in care (CiC)³ and Previously CiC
 - 6.3.12. Designating a college Attendance Lead, to lead on attendance/absence.
- 6.4. The Designated Safeguarding Lead (and Deputy DSL):

The DSL (and in their absence the deputy DSL) is the lead for child protection and safeguarding at TGI College. They should always be available during college hours in term-time. If an urgent situation arises outside of term-time that requires direct input from college, they (or the Principal) may be contacted for assistance (for example, about providing a report or suitable attendance at an urgent meeting). Summary broad responsibilities are:

- 6.4.1. Undertaking formal training appropriate to their role at least every two years, and refreshing knowledge at least annually. (The deputy DSL must be trained to the same level as the DSL.)
- 6.4.2. Ensuring the College's safeguarding policies are up-to-date, known and understood, and that staff and volunteers refresh training in line with ISCP requirements
- 6.4.3. Managing cases of safeguarding and child protection concerns: Supporting staff with advice as necessary; referring cases to relevant agencies and sharing information as appropriate to the circumstances, and ensuring ongoing cooperation in cases
- 6.4.4. Keeping thorough and secure child protection records.

7. Procedure

- 7.1. This policy applies to:
 - 7.1.1. All staff (teaching and non-teaching, permanent and temporary, full-time and part-time)

- 7.1.2. Casual supply workers in college
- 7.1.3. Volunteers
- 7.1.4. Other visitors (such as representatives of other agencies coming in to college to support education/children, and contractors).
- 7.2. It extends to college activities taking place outside of the normal college day, and to college activities taking place off-site.
- 7.3. Safe Recruitment

The appointment of college staff – teaching and non-teaching – follows the States of Guernsey’s recruitment processes and procedures, including vetting checks appropriate to the role (DBS etc.) The records of all staff working in college are held centrally, updated as appropriate by central and college staff.

7.3.1. Other adults who may work at college, for example:

- External Providers and Support Agencies that visit to help with curriculum delivery or otherwise support education/children
- Volunteers
- Contractors

should be vetted and supervised, appropriate to what they are doing and the contact they will have with children, in line with Education Services’ policy (Vetting in Education Services, External Providers, Businesses and Support Agencies).

7.3.2. Any person who has not been vetted must not be left alone with children. A risk assessment should be carried out when deciding whether to seek an enhanced DBS check for supervised volunteers.

2.0 Safe Recruitment

The appointment of College staff – teaching and non-teaching – follows the States of Guernsey’s recruitment processes and procedures, including vetting checks appropriate to the role (DBS etc.) in line with [Vetting](#) policy. Key Collegestaff involved in recruitment processes should be trained in safe recruitment practice.

Staff working in a States of Guernsey central Education role that involves frequent presence on College sites, for example school Support services, Music Service, Education Estates team, etc. will have been appropriately vetted for their role at the time of appointment and do not need to be supervised while on school sites. The same is true of other States of Guernsey staff employed in a professional role working with children (such as School Nurses, Social Workers, etc.). Regardless of their role on-site, visiting officers must observe normal sign-in etc. procedures with the school office and any concerns encountered while on site should be raised with the College Safeguarding Team.

Other adults who may work at College, for example:

- External Providers and Support Agencies that visit to help with curriculum delivery or otherwise support education/children
- Volunteers
- Contractors

should be vetted and supervised, appropriate to what they are doing and the contact they will have with children, in line with States of Guernsey and Education policies ([Vetting](#); [External Providers, Businesses and Support Agencies](#)).

Relevant details of people working in College are included on the College 'single central register' (SCR), maintained in line with [established guidance](#).

Any person who has not been vetted must not be left unsupervised with children.

7.4. Induction

7.4.1. College Staff

All new staff (part-time and full-time) should receive an induction that covers:

- The college Safeguarding and Child Protection policy (including DSL role and identity)
- TGI College Policies relating to conduct and behaviour (including measures to prevent bullying)
- The relevant Code of Conduct for staff
- The Managing Safeguarding Concerns and Allegation procedure and the States of Guernsey's Whistleblowing policy
- Relevant safety and welfare information
- Safeguarding training appropriate to role
- Online Safety policy and training, appropriate to role

Staff should sign to confirm that they have received and understood all of the above, with records kept for the staff file.

7.4.2. Casual Supply Workers, Volunteers and Other Visitors

A proportionate and risk-based approach should be taken in respect of the induction information provided to short-term temporary (casual supply) workers, volunteers and other visitors (for example, representatives of other agencies coming into college to support education/children, contractors). This should consider what the person will be

doing, frequency of the activity and the amount of contact with children. As a minimum, they must receive sufficient information to be aware of the college's commitment to safeguarding children and know to raise any safeguarding concerns they may encounter while in college.

7.5. Training (including regular updates)

7.5.1. Staff, casual supply workers and volunteers are required to undertake safeguarding and child protection training suited to their role at induction and then at regular intervals. Minimum training level and frequency is set by the [ISCP](#). Relevant 'online safety' training should also be undertaken, appropriate to their individual role.

7.5.2. The DSL/deputy should:

- Update their 'formal' training every two years (this is more frequent than ISCP minimum requirements, recognising the importance of the DSL team training and practice remaining up-to-date)
- Update knowledge and skills regularly (at least annually), for example, meeting with other safeguarding personnel, reading bulletins etc
- Attend the Island DSL meetings
- Provide regular updates to staff/volunteers.

7.5.3. All other staff/volunteers should:

- Update their 'formal' training every three years
- Receive regular safeguarding and child protection updates (from the DSL and/or others, as appropriate), at least annually. This includes re-reading this policy annually (confirmed by staff signature).

7.5.4. Training completion for staff and volunteers should be recorded, and monitored by the DSL who should ensure it is renewed when needed.

TGI College staff receive formal Level 2 Safeguarding & Child Protection training every 2 years

Recognising issues

7.5.5. All staff should:

- Observe the behaviour and demeanour of students for changes that may indicate a safeguarding concern
- Be aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected. For example, they may feel embarrassed, or there may be barriers based on language or disability, etc. Children may also not recognise their experiences as harmful, or indeed may have been threatened not to tell. This must not prevent staff from speaking to the DSL if they have concerns about a child
- Be aware that safeguarding incidents and/or behaviours can be associated with factors outside the College and/or occur between children outside of college. All

staff, especially the DSL (and deputy), should consider whether children are at risk of abuse or exploitation in situations outside their families.

- Be aware that technology is a significant component in many safeguarding and wellbeing issues. In many cases abuse will take place online and in daily life at the same time. Children are at risk of online abuse, but can themselves also abuse other children online

7.5.6. The DSL should have a clear understanding of the ISCP's Care and Support Framework, which provides multi-agency guidance to support children and families.

7.5.7. Awareness that some children are potentially more vulnerable

There is potential for any child to need support, but staff should be particularly alert to issues or concerns in a child who:

- Is disabled and has specific additional needs
- Has special educational needs
- Has mental health needs
- Has physical health issues
- Is a young carer
- Is showing signs of being drawn in to anti-social or criminal behaviour
- Is misusing drugs or alcohol
- Is frequently missing/goes missing from home/care or education
- Has experienced recent trauma, for example, bereavement
- Is at risk of modern slavery, trafficking or exploitation
- Is at risk of being radicalised or exploited
- Is at risk of honour-based abuse
- Is (or may be perceived to be) lesbian, gay, bi or trans (LGBT)¹
- Is involved in sharing nude/semi-nude images
- Is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues, family member in prison or affected by parental offending, and domestic abuse
- Has a social worker
- Is a 'Child in Care'
- Has returned home to their family from care
- Is a privately fostered child – see section 10.12. (including learners from Alderney, Sark and Herm living with a Guernsey host under either the Term-Time Host scheme or private arrangements)
- Is undertaking an Alternative Provision education package

Where a child has been identified as potentially more vulnerable for any of the above reasons (or indeed any other reason), relevant staff should be confident that the child has access to a trusted adult within College.

Staff should also be aware that adverse childhood experiences (ACEs) can have a lasting impact on a child's development, physical and mental health and behaviour, including into adulthood.

[1] The fact that a child or young person may be LGBT is not in itself an inherent risk factor for harm. However, children who are LGBT can be targeted by other children.

7.5.8. Early Help

It is better to provide support as soon as a problem emerges in a child's life to try to prevent it from escalating – this is known as 'Early Help'. Staff should try to identify emerging needs as soon as possible. In some cases it will be appropriate for TGI College to coordinate 'Early Help' directly, liaising with other relevant services/agencies, and creating a 'Team-around the child' (TAC) where appropriate. The Progress Coach team would coordinate this action. However, if there is any suggestion or suspicion of abuse, the full referral pathway set out in (section 7.7.3) must be followed, initially via ProMonitor and including referral to the Multi-Agency Support Hub (MASH), or the child's social worker, if they already have one.

7.5.9. Recognising Abuse

Staff should assume that any safeguarding issue could happen here. If a staff member has concerns but is unsure, they should always speak to the DSL or a member of the Student Support team.

All concerns should be recorded via a confidential comment on ProMonitor.

7.5.10. Abuse and Neglect

Abuse is a form of maltreatment of a child and may involve inflicting harm or failing to act to prevent harm. Harm can include ill treatment that is not physical, as well as the impact of experiencing ill treatment of others – for example, the impact on children of all forms of domestic abuse. Categories of abuse include: physical, emotional and sexual. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place in person, online, or a combination (technology may be used to facilitate in-person abuse). Children may be abused by an adult/adults or by another child/children.

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. It is one of the most common forms of abuse and can take a wide range of forms. Staff working with children should be aware of the [ISCP Neglect Strategy](#) and the SCPO team should be familiar with relevant ISCP-endorsed assessment tools.

Abuse, neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap.

Appendix 1 provides an introduction to the different forms of abuse and neglect, including possible indicators, which all staff should read and be aware of.

7.5.11. Staff should be aware that children with special educational needs and disabilities (SEND) and/or physical health issues can face additional safeguarding challenges and additional barriers can exist when recognising abuse and neglect in this group of children. These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability or medical condition, without further exploration
- Being more prone to peer group isolation than other children
- Being reliant on personal and intimate care
- The potential for children with SEN and disabilities being disproportionately impacted by behaviours such as bullying, without outward signs
- Communication barriers and difficulties in overcoming these barriers.
- Children being unable to understand the difference between fact and fiction in online content and the consequences of repeating the content/behaviours

Additional ISCP guidance can be found at

<http://iscp.gg/Protecting-children-with-disabilities-from-abuse>

7.5.12. Children with SEND should receive additional monitoring and pastoral support from the College's Student Support Manager, who oversees SEND Coordination.

7.5.13. Specific Safeguarding Issues

Appendix 2 contains information about specific forms of abuse and safeguarding issues that staff should be aware of. Please note that this appendix reflects issues listed in KCSIE and in some circumstances there may be little concern currently about an issue taking place in Guernsey. However, the starting point should be that it could happen here.

7.6. Taking Action

7.6.1. Safeguarding or child protection concerns may arise as a result of:

- Staff/volunteer observations
- A disclosure from a child (see section 7.7.7)
- Other information

- 7.6.2. Anyone having concerns must act on them as soon as possible, and not assume that someone else will do so instead.
- 7.6.3. It is not the role of the concerned person to investigate suspected abuse themselves, but rather to share information appropriately and support children as part of a wider response. The course of action to take depends on the circumstances:

- **Child not in immediate danger:** Record via ProMonitor (possible referral to the DSL - (see section 7.6.4)
- **Child in immediate danger** or a serious crime is in progress/imminent: Contact the DSL/Deputy DSL immediately. If neither are immediately available, contact the Principal/Vice-Principal/a member of the College Leadership Team.

If above options have been exhausted, make a direct referral to MASH/Police - see 5.2

- **Concern relates to the behaviour of an adult working in the College, or college safeguarding practice:** Refer to the Principal (or Education Services' ELCPO if the concern is about the Principal) – see 7.7.8

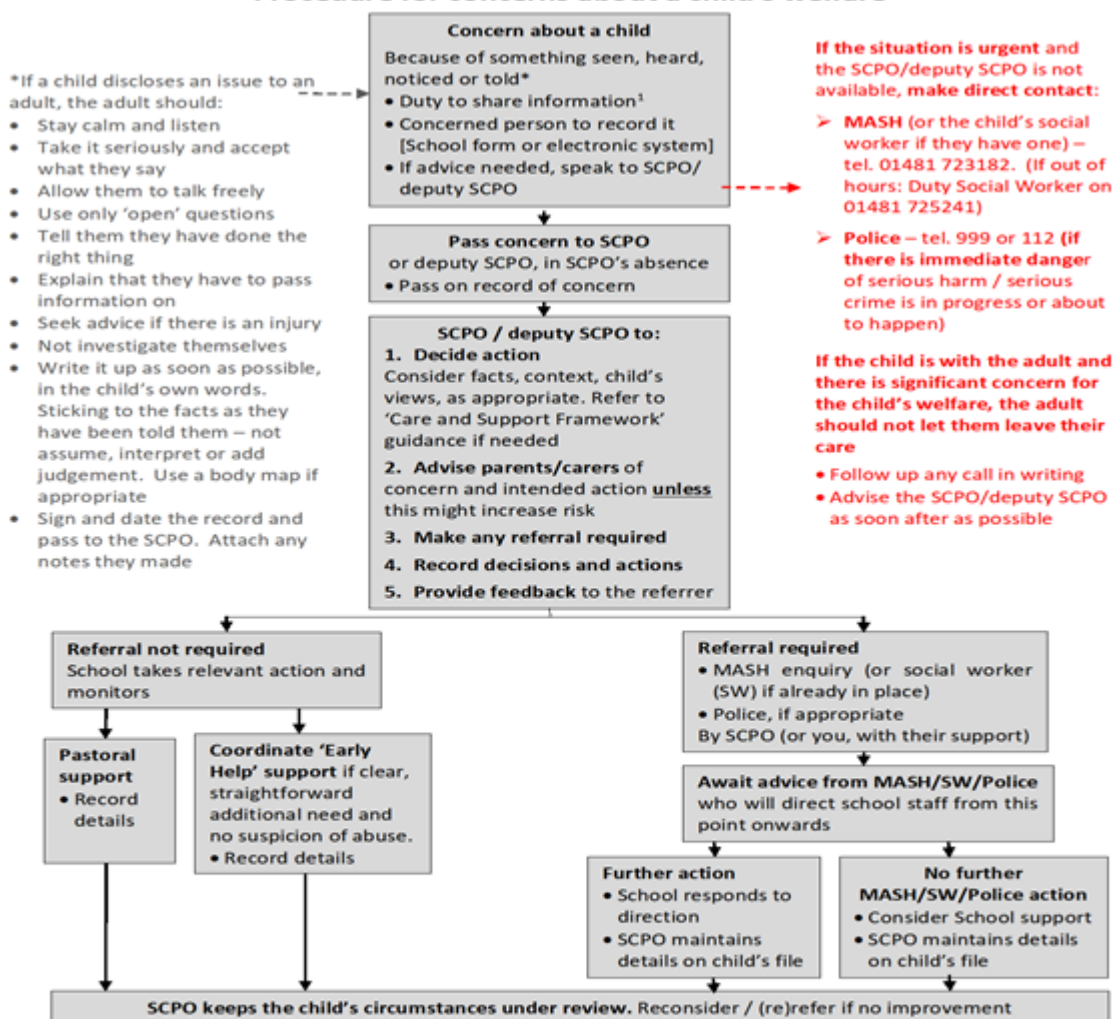

Scenarios 1 and 2 are also summarised in the flowchart below

- 7.6.4. Wherever a referral is made to MASH/social worker or the Police etc, TGI College staff should participate as fully as may be needed in any subsequent discussions, meetings and support plans.

Any disagreement with another agency should follow ISCP guidance <http://iscp.gg/article/118107/Resolution-of-Professional-Disagreements---Escalation-Policy>. If it is considered that a situation may require reference to this policy, advance notification should be provided to Education Inclusion Services.

If there are concerns about a learner who has recently joined the College, the DSL/deputy DSL should ensure they check transition information. In some cases this may include making confidential contact with the SCPO at the previous school. If the learner has moved from an Early Years provider, contact may be made direct with the provider's named Safeguarding Lead, or through the States Early Years Team, as appropriate.

Procedure for concerns about a child's welfare

At all times:

- The best interests of the child must come first
- Maintain appropriate confidentiality – Only involve people that need to know
- Ensure records are factual, accurate, relevant, up-to-date, secure and auditable
- Anyone who has genuine concern that appropriate action has not been taken, can make a referral themselves

¹ Under section 27 of the Children (Guernsey and Alderney) Law 2008, it is the duty of every States employee, and anyone else who is working with a child, to share information where they believe that child is in need or at risk

7.6.5. Child Not in Immediate Danger

- The person who has the concern should record it in line with TGI College procedure and pass it to the DSL as soon as possible. Information should be recorded as a confidential comment on ProMonitor and marked for the attention of the DSL/Deputy DSL.
- Advice may be sought from the DSL/Deputy DSL/Progress Coach (Safeguarding Team), but the details of the concern should be recorded in writing (see section 7.1.10 on records).
- The DSL should consider the course of action to take:
 - At all times the child's best interests must come first

- If a member of the Safeguarding Team themselves needs advice about whether a referral is appropriate, they can have an initial discussion with MASH on a 'no names' basis
<http://iscp.gg/article/118043/Advice-if-you-are-unsure>
- Wherever possible and appropriate, the child's views should be sought and taken into account when determining what action to take
- Concerns about a student should ordinarily be discussed with parents/carers. However, if the Safeguarding Team believes notifying parents/carers could increase risk, advice should first be sought from MASH. If a decision is made not to discuss concerns with the parents/carers, this should be recorded as a confidential comment, with an explanation for the decision
- If concerns are discussed with parents/carers but they do not consent to a referral that the College thinks is appropriate, this must be made clear to MASH.
- Action may be:
 - Managing support for the child internally via the college's pastoral systems
 - Coordination of 'Early Help' support (if straightforward and there is no suspicion of abuse)
 - A referral to the MASH - via the online enquiry form found [here](#) (or, if the child has a social worker, they should be contacted directly by the Safeguarding Team). Where a referral is appropriate, the DSL/Deputy DSL should make it themselves, or support the staff member in doing so. A copy of the submitted form should be retained for school records.
- If a staff member believes that a referral is appropriate but one is not made, they should discuss this with the DSL. If necessary, they can consider making a referral themselves. The DSL must be informed of any direct referral as soon as possible.
- All concerns, actions, decisions and reasons should be recorded. Information should be held on ProMonitor via confidential comments.

7.6.6. Child in Immediate Danger

If there is:

- Concern that a child is being mistreated and at risk of harm – contact the DSL on 07839 777643 or Deputy DSL on 07839 777649 (see Appendix 4 for names of current post holders).

Contact will then be made with the MASH team as soon as possible on 01481 723182 or, if the matter is urgent and outside of office hours, the duty social worker on 01481 725241.
- Concern that there is immediate danger - call the Police on 999 or 112 without delay

- Danger to life or
- Risk of serious injury or
- A serious crime is in progress or about to happen.
- Anybody can make a referral. If the severity of the situation means that a staff member has to make a referral directly, rather than go through the DSL, they must tell the DSL as soon as possible afterwards.
- Consent to share information is not needed if a child is suffering, or is at risk of, serious harm.
- If the child is with the adult and there is significant concern for the child's welfare, the adult should not let the child leave their care.
- Telephone enquiries must be followed up in writing, and the DSL must be advised as soon as possible.

7.6.7. What to Do if a Child Makes a Disclosure

If a child discloses a safeguarding issue, the adult (staff member/volunteer) should:

Receive	Reassure
<ul style="list-style-type: none"> ● Stay calm ● Listen ● Don't show shock ● Accept what the child says ● Find a comfortable place to talk 	<ul style="list-style-type: none"> ● Tell the child they have done the right thing ● Never promise to keep a secret ● Tell the child that they have to pass information on ● Alleviate any feelings of guilt ● Acknowledge the difficulty of telling ● Empathise

React	Record*
<ul style="list-style-type: none"> ● Not ask leading questions ● Not criticise the alleged perpetrator ● Not ask the child to repeat the disclosure to someone else ● Explain what they (the adult) needs to do next and who they need to contact ● If disclosure is about immediate abuse, not offer shower, bath or change of clothes ● Contact the DSL 	<ul style="list-style-type: none"> ● Record things via ProMonitor as soon as possible (written notes may need to be taken in first instance) ● Keep any original notes, even a scrap of paper or Post-It note ● Use the child's own words ● Be factual, avoiding assumption or interpretation ● If appropriate, use a body map ● Make the child's views known ● Pass the completed record (signed and dated), plus any original notes, to the DSL

7.6.8. Concerns about the Conduct of a Staff Member/Volunteer, or about TGI College Safeguarding Practice

Concerns about:

- The conduct of a member of staff (including supply staff) or volunteer associated with the College, regarding any child they have contact with in their personal, professional or community life, (see 7.7.9) or
- College procedures/practice

must be reported without delay. This is in line with staff member Codes of Conduct. The States of Guernsey Whistleblowing policy (which extends to volunteers and contractors) is also relevant, particularly if the concerned person does not feel it is properly addressed.

7.6.9. Safeguarding Concerns/Allegations of Abuse Against Staff/Volunteers

All people working in/for States of Guernsey-maintained schools, TGI College and supporting Education services are expected to demonstrate high standards of conduct in working with/around children.

Behaviour that generates concern can exist on a wide spectrum: from inadvertent/ thoughtless, or behaviour that may look to be inappropriate, but might not be in specific circumstances, through to behaviour which is ultimately intended to enable abuse. Some safeguarding concerns may be relatively low-level, relating to behaviour that appears to be inconsistent with the person's code of conduct/the standards expected of their role.

Other cases may represent an allegation that someone may have:

- Behaved in a way that has harmed a child or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates they may pose a risk of harm to children

- Behaved or may have behaved in a way that indicates they may not be suitable to work with children

Anyone who has a safeguarding concern about an adult working in or on behalf of the College must report it to the Principal/DSL (or the Education ELCPO if the Principal/DSL is the subject of the concern). This is the case no matter how small the concern – even if it just generates a sense of unease, or a ‘nagging doubt’. This includes if the conduct took place outside of work.

Staff members should not hesitate to raise concerns about others, but they are equally encouraged to be self-reflective and approach the Principal directly (self-report) about their own behaviour if at any time they:

- Have found themselves in a situation which:
 - Could be misinterpreted
 - Might appear compromising to others, and/or
- Believe they have behaved in such a way that they consider falls below the expected standards.

7.6.10. Reports will be dealt with in line with Education Services procedure. This ensures fair and consistent handling in a way that provides effective child protection, while also supporting the subject of the concern/allegation.

7.6.11. If the States of Guernsey:

- Terminates employment because someone has harmed a child
- Terminates employment because someone might have harmed a child otherwise
- Would likely terminate someone’s employment for either of these reasons, but the person resigned first

it will (through the central HR section) refer that person to the DBS and any relevant professional body, as appropriate.

7.6.12. Allegations against a lecturer who is no longer teaching and historical allegations of abuse should be referred to the Police.

7.6.13. Allegations of Abuse against a Child: Peer on Peer Abuse (Child on Child Abuse)

Children can abuse other children (Peer on Peer abuse {formerly known as ‘child-on-child’ abuse}). Abuse can happen both inside and outside of school, and online. It may include, but is not limited to:

- Abuse in intimate personal relationships between children
- Bullying (including cyberbullying, prejudice-based and discriminatory bullying)
- Physical abuse (for example, hitting, kicking, shaking, biting, hair pulling, etc.)
- Initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)
- Harmful sexual behaviour. Most children display a range of healthy sexualised behaviours as they grow up. However, some may display developmentally inappropriate sexual behaviour which may be problematic or abusive. This is harmful to the children who display it as well as the people it's

directed towards. (More information available here: [Protecting children from harmful sexual behaviour | NSPCC Learning](#)) and in Appendix 2 (13.12). This may include:

- Sexual harassment, such as sexual comments, stories, jokes and online sexual harassment, which may be stand-alone or part of a broader pattern of abuse – see Appendix 2 (13.12)
- Sexual violence – see Appendix 2 (13.12)
- Causing someone to engage in sexual activity without consent
- Upskirting (which typically involves taking a picture under someone’s clothing - not necessarily a skirt - without them knowing. Anyone, of any gender, can be a victim.)
- Sharing nude or semi-nude images/videos (also known as sexting or youth produced sexual imagery. This may be consensual or not).

There may be online elements to many of the above.

7.6.14. Staff and volunteers should be aware that:

- Even if there are no reports in College, it does not mean that child-on-child abuse is not happening – it may simply not be being reported. In particular, in line with evidence from neighbouring jurisdictions, College will assume that sexual harassment, online sexual abuse and sexual violence is happening in and around College
- Any concerns regarding child-on-child abuse must be raised with the Safeguarding team
- Abuse that occurs online or outside College should not be downplayed and should be treated equally seriously
- Child-on-child abuse can manifest itself in many ways
- Gender can be a factor; for example, it is more likely that girls will be victims and boys perpetrators
- Issues associated with disability, ethnicity, gender, and sexual orientation may make it more difficult for some children to report abuse

7.6.15. **Abuse is abuse and should never be tolerated.** It is very important that staff challenge inappropriate behaviours between children. Downplaying behaviours, as ‘banter’, ‘just having a laugh’, ‘part of growing up’ or ‘boys being boys’ can lead to a culture of unacceptable behaviours, an unsafe environment for children and in worst case scenarios a culture that normalises abuse leading to children accepting it as normal and not reporting it.

The initial response is very important and can encourage or deter future victims from coming forward. Staff should reassure victims that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting child-on-child abuse, nor be made to feel ashamed.

- 7.6.16. It should be recognised that a student harming a child could also be a sign they are themselves being abused.
- 7.6.17. To minimise the risk of peer on peer abuse, TGI College takes a whole college approach:
- Provides a developmentally appropriate curriculum, including Personal, Social, Health, and Citizenship Education (PSHCE), Sex and Relationship Education and Online Safety, through the Personal Development Programme, which develops students' understanding of acceptable behaviour, healthy relationships and keeping themselves safe
 - Has relevant policies in place (eg Student Conduct policy) including measures to help prevent bullying
 - Encourages students to recognise situations where the actions of other students are causing harm, and not accept them - raising concerns as appropriate
 - Has systems in place for any student to raise concerns with staff, knowing that they will be listened to, believed and valued (Students can disclose to the Student Support team of Progress Coaches and LSAs, report to Progress Tutors that complete 1:1 reviews, log a concern through an anonymous student feedback form or speak to a member of their vocational teaching team.)
 - Develops robust risk assessments where appropriate
 - Challenges any form of derogatory or inappropriate language or behaviour
 - Is accepting of all religions, cultures, social identities and backgrounds.
- 7.6.18. If one child harms another, this should not necessarily be dealt with as abuse – in many cases it would be appropriate to deal with it under the conduct policy (including relevant recording on ProMonitor). When considering if behaviour is abusive, it is important to consider:
- If there is a large difference in power between the children concerned (for example age, size, ability, development)
 - If the perpetrator has repeatedly tried to harm other children
 - If there are concerns about the intention of the alleged perpetrator(s)
- 7.6.19. All instances that are considered to be abuse should be reported to the DSL, through the processes already set out earlier (sections 7.6.4). In considering action the DSL should:
- Undertake a risk assessment, informed by subject area specialists as appropriate. Risk assessments should be recorded and kept under review
 - Put support in place for all children involved –the victims, (alleged) perpetrators and others, as appropriate - with a named person they can talk to if needed
 - Consider if restorative justice would be appropriate
 - In the case of instances of harmful sexual behaviours, sexual violence or sexual harassment, the DSL should be aware of further guidance available in Part 5 of

[KCSIE \(2022\)](#) and of local processes and support available for these issues. There should be a zero-tolerance approach.

7.6.20. Referral to MASH etc should happen for any allegation that raises safeguarding concerns (processed through the Safeguarding Team), for example, where the alleged behaviour:

- Is serious/violent/potentially a criminal offence
- Could put students in the College at risk
- Involves students being forced to use drugs or alcohol
- Involves sexual exploitation or sexual abuse, such as indecent exposure, sexual assault, or sexually inappropriate pictures or videos (including sexting. Colleges should be aware of [Education's guidance about sexting](#). Where there are images involved, staff must not view or forward them, but should rather switch the device off and retain it).

7.6.21. In the case of allegations of abuse made against other children, the College should normally notify the parents/carers of all the children involved.

7.6.22. Appendix 2 (section 13.12) provides further guidance on peer on peer sexual violence and harassment.

7.6.23. Cooperation with Other Agencies

In addition to taking action when concerns arise at college, TGI College will cooperate in interagency safeguarding and child protection cases that have arisen through another agency. The DSL should coordinate action - sharing information, attending meetings, contributing to plans and taking action as may be necessary.

7.7. Confidentiality and Information Sharing

7.8. All safeguarding and child protection matters are confidential. However, information sharing is vital in order to safeguard and promote the welfare of children and young people. Staff and volunteers must be aware that data protection (the Data Protection (Bailiwick of Guernsey) Law 2017 and General Data Protection Regulation) is not a barrier to information sharing in the right context and situations. The ISCP Information Sharing Guidance provides detailed guidance.

7.8.1. If a staff member/volunteer has concerns about a child's welfare, or believes they might be at risk of harm, they must share information as set out in this policy

7.8.2. Colleges should share information as early as possible to help identify, assess and respond to risks or concerns about child safety and welfare

7.8.3. Staff should never promise a child that they will not tell anyone about a report of abuse

7.8.4. Colleges should normally discuss any concerns about a student with parents/carers, including telling them where a referral is being made. However, if the College believes that notifying parents could increase the risk to the child or exacerbate the problem, or lead to loss of evidence for a police investigation, advice should first be sought from MASH (this will be actioned by the Safeguarding Team)

7.8.5. In all safeguarding matters:

- An appropriate level of confidentiality must be maintained, only involving those who need to be involved
- What is shared should be relevant, accurate and proportionate to the sensitivity of the information and the circumstances
- Security of information sharing must always be considered:
 - Conversations should take place in a way that means personal and sensitive information cannot be overheard
 - Any paper-based information should be enclosed in an envelope, clearly addressed to the intended recipient, and marked as 'Private and Confidential, to be opened by the addressee only'
 - Electronic email sharing of sensitive child protection issues within the States of Guernsey, on a need to know basis, must be through Egress

7.8.6. ESC's Data Protection Officer can assist with any queries about sharing personal information (data.protection@gov.gg)

7.9. Records

7.9.1. All concerns, decisions made (including about if and with whom information is shared), the reasons for those decisions, and actions, should be recorded in writing.

7.9.2. All records should be factual, accurate, relevant, up-to-date, secure (accessible only to those who need to know), and auditable. They should support monitoring, risk assessment and planning for children and enable informed and timely decisions to be made about appropriate action to take.

7.9.3. All records will be stored securely and overseen by the DSL. The way that the College storage of records is identified on the school Information Asset Register (IAR). Electronic CP records should be hosted on ProMonitor which has password secure and appropriate access controls applied. No paper copies or records should be created or stored, or any records held on individual hard drives.

7.9.4. The person who has raised a safeguarding concern should not retain copies of records themselves – these should be passed to the DSL for appropriate filing.

7.9.5. Records should be retained in line with Education Services retention guidance.

7.9.6. If in doubt about recording requirements, staff should speak to the DSL. Assistance can also be obtained from ESC's Data Protection Officer, on data.protection@gov.gg

7.9.7. Safeguarding Concern Log

The DSL should record summary details of all safeguarding concerns raised at the College in a confidential and secure log, to assist in keeping an overview of safeguarding across the College. All safeguarding concerns should be logged on ProMonitor.

7.9.8. Child Protection File

Confidential child protection information for an individual child should be held in a confidential file, by the DSL. This should be held securely, separate to student records, but with its existence indicated on the main student record.

Each individual child protection file should include a summary chronology that is updated as events occur.

When children leave TGI College, the DSL should ensure their child protection file is transferred to the new educational establishment (where appropriate). This transfer should be done as soon as possible, **within five days** for an in-year transfer or **within the first five days** of the start of a new term. The file should be transferred separately from the main student file, ensuring secure transit, and confirmation of receipt should be obtained (if transferred by email, Egress should be used). The DSL should also consider if it would be appropriate to share any information with the new school or college in advance of a child leaving, to enable support to be in place for when the child arrives.

Where TGI College receives a child protection file in respect of a new joiner, the DSL should ensure key staff are aware as required.

7.10. Communication

7.10.1. It is important that the whole college community is aware of the College's commitment to safeguarding, and that everyone has a level of knowledge of responsibilities and the procedures, appropriate to their needs:

- Staff should be made aware of this policy and procedures through induction, annual refresh and training
- Children should be made aware of how the College can help them. Student Support is visible and promoted to all members of the Student Body.

All Student and Staff ID cards have safeguarding contact information printed on the rear, Safeguarding posters are displayed throughout the College (including in all toilet cubicle doors), Desktop wallpaper of networked IT machines have safeguarding information displayed.

- Parents/carers should be made aware of this policy when their child joins the College. It should also be on the website and available on request
- TGI College Connect (internal social media network) is used to promote Student Support and opportunities to engage with support.

7.10.2. The College should actively seek input from children and their parents/carers, including on safeguarding issues.

- This is enabled through the Parents/Carer newsletter, the College's Social Media platforms, Parent and Carer Voice surveys and via interaction with Parents/carers through the Safeguarding Team.

7.10.3. Parents/carers are able to raise any issue with staff at the College, at any time, via Support@TGI College.net

7.10.4. Education Services has an accessible complaints procedure on the www.gov.gg website.

7.11. Monitoring and Review

There are a number of mechanisms in place which seek to ensure that TGI College is safeguarding its children as well as it can. Whenever any of these mechanisms highlight areas that could be improved, these should be addressed without delay.

7.11.1. The DSL should:

On an ongoing basis

- Monitor staff compliance with this policy and procedures (including staff training completion/renewal, and reviewing how processes are being done)
- Keep individual cases under review, including those which have not met the threshold for referral and are being handled in-college, with checks made each half term to ensure any actions have been completed. These checks should be undertaken in liaison with another relevant member of staff (for example, deputy DSL, lecturer or member of Student Support, as appropriate to individual cases) – this ensures reviews benefit from different perspectives, and also provides staff involved with support and opportunity for reflection. If a child’s situation does not appear to be improving, the DSL has a duty to seek the re-examination of actions. Any disagreement with another agency should follow ISCP guidance <http://iscp.gg/article/118107/Resolution-of-Professional-Disagreements---Escalation-Policy>

Annually

- Before the end of each academic year, complete the Education Services/ISCP audit of school/college child protection and safeguarding practice. The results of this audit help to guide system improvements and should be shared with the School/College Committee, Education Services and the ISCP
- Review this policy, in liaison with staff, other DSLs and Education Services. All staff should be encouraged to contribute to the review (the DSL should also be involved with reviewing other policies closely linked to safeguarding, ensuring a holistic approach is taken.)

Additionally:

- Education Inclusion Services probes elements of the College’s safeguarding practice during scheduled review sessions
- The Education Office’s Head of Inclusion and Services for Children & Schools generally oversees safeguarding and child protection across schools and services
- TGI College experiences periodic audit by the Committee *for* Health & Social Care
- TGI College general safeguarding arrangements are reviewed through school/College inspections

7.12. Particular Safeguarding Arrangements

7.12.1. College Life – Curriculum and Pastoral care

TGI College's ethos and pastoral care systems seek to ensure children are in an environment where they feel safe, secure, valued and respected, and confident enough to approach an adult if they (or their friends) are in difficulty. Positive values are promoted through the curriculum and general college life. Children are taught about mutual respect and tolerance of others; the right to be safe; and about safeguarding issues, appropriate to their needs. This includes delivery of effective PSHCE through the Personal Development Programme (including relationship education), but also extends across the wider curriculum. Any off-site visits to enrich the curriculum (including exchange visits etc) or visits by external speakers should be undertaken in accordance with Education Services' policy.

7.12.2. Missing Students

Attendance and absence are closely monitored. There are clear college procedures in place and the Student Support Manager liaises with the School Attendance Service where appropriate to support transition into post-compulsory education. When a child is absent without explanation, procedures for unauthorised absence are followed. This includes use of TGI College Connect to make contact with a student and when necessary, communication with their registered contacts. Where possible, more than one emergency contact number is held for children. The DSL should monitor unauthorised absences.

7.12.3. All staff should be aware that children missing college, particularly repeatedly, can be a warning sign of safeguarding issues. Early intervention can help prevent a child going missing in the future. If staff have concerns about a student at any time, the child protection procedures should be followed and ProMonitor records updated. Actions by Student Support may include a referral to MASH and/or the Police where appropriate. The unexpected absence of a child who is already the subject of child protection concerns should be notified to the child's social worker and Police straight away (this is actioned by the Safeguarding Team).

7.12.4. Careers Guernsey (and Education Services when applicable) should be advised if a child leaves the College without clear destination data.

7.12.5. Online Safety & Digital, Photographic and Video Images

The College takes online safety seriously and follows Education Services policies: 'Online Safety Policy and Guidance on Sexting in Schools' and 'Use of Digital Images of Children and Young People'.

Measures in place include:

- 'Acceptable use' agreements for children, staff and community users
- Internet content filtering and monitoring systems – monitoring undertaken by the DSL
- Training for staff on online safety (through induction and ongoing updates)
- The inclusion of relevant messages in teaching across the curriculum
- Ensuring that where staff/volunteers take images to support curriculum aims, only college-owned devices are used
- Consent is obtained for publication of any image

- Parents/carers may take photographs or videos at a college event, but only for their private use.
 - Communicating with parents/carers the importance of children being safe online and providing information to them about what College itself asks children to do online.
- 7.12.6. TGI College will follow guidance from Education Services in any periods where students have to learn (online) from home, rather than attend college.
- 7.12.7. Special Educational Needs
- TGI College's Student Support Manager oversees SEND Coordination. The College works in accordance with the [SEN Code of Practice](#).

If there are concerns/reports of abuse involving a child with SEND, there should be close liaison between the DSL and SEND Coordinator.

- 7.12.8. Safeguarding adults
- TGI College recognises its duty of care over all students, staff and visitors and where an adult is considered at risk the College applies the same principles of safeguarding as laid out in this policy. The DSL/DDSL refer to the Adult Safeguarding Unit and if necessary submit a referral to Adult MASH in line with HSC guidance.
- 7.12.9. Health and Hygiene
- First aid arrangements (equipment, trained staff) are based on a college specific risk assessment
 - All [accidents and near-miss incidents](#) should be recorded, in line with Education Services' policy. Information is recorded in EVOLVE
- 7.12.10. TGI College works collaboratively with parents, children and healthcare professionals to support children with medical needs. in line with Education policy '[Medicines in Schools and Supporting Learners with Medical Needs](#)'
- 7.12.11. TGI College works to promote healthy lifestyles through both the curriculum and practical measures at College, including following Education policies on '[Food in Guernsey Schools](#)' and '[Physical Activity](#)'. The College works closely with the Health Improvement Commission
- 7.12.12. TGI College implements and encourages good routines around hygiene and premises cleaning.
- 7.12.13. In times of any Public Health situation (eg an outbreak of a communicable disease either in the College or in the wider community) TGI College will follow the advice of Education Services and States of Guernsey health professionals (such as Public Health Services and the School Nursing Service). At such times, the safeguarding policy should be reviewed and, where appropriate, revised (for example, creation of a temporary addendum).
- 7.12.14. Mental Health and Wellbeing

TGI College takes mental health and wellbeing seriously and follows Education Services' policy '[Positive Mental Health and Wellbeing](#)'. The Principal is the Mental Health and Wellbeing Champion.

- 7.12.15. Mental health issues can impact on a child's behaviour and education. They can also be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation, or that they have experienced some other kind of trauma. If staff have a mental health concern about a child which is also a safeguarding concern, action should be taken to speak to the DSL, in line with this Safeguarding policy.
- 7.12.16. Staff who have become involved in safeguarding and child protection cases may find the situation stressful and upsetting. The DSL should support such staff. Staff may also access the [Employee Assistance Programme](#). Should the DSL need support, they should seek it from their line manager or appropriate Education Inclusion Services officers.

Substance Misuse

All staff should be aware that behaviours linked to drug taking, alcohol abuse and other substance misuse put children at risk of harm. The Children Law identifies misuse of drugs or alcohol as factors that can lead to a child being designated as 'at risk'.

College follows Education policy '[Drug, Alcohol, Tobacco Education and Management of Drug Related Incidents](#)' to ensure:

- Students receive specific education to enable them to develop their knowledge, skills, attitudes and understanding about these substances
- Substance-related incidents are dealt with in a consistent way, engaging safeguarding processes as appropriate

7.12.17. Physical Intervention

The College's approach to behaviour management should mean the use of physical intervention is rare. TGI College follows Education Services' policy on 'Positive Handling' which sets out the framework for physical interventions when managing challenging behaviour. Such interventions are used only in the best interests of the student and when they are used, everything possible is done to use only necessary, reasonable and proportionate force whilst preventing injury and maintaining the student's sense of dignity.

Corporal punishment (any punishment in which physical force is used and intended to cause some degree of pain or discomfort) is not permitted in States of Guernsey Schools/Colleges.

7.12.18. Children who have a Social Worker

The DSL/Deputy DSL should be aware of all children at college who have, or have previously had, a social worker. Children may have an allocated social worker because of safeguarding or welfare needs. A child's experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally disadvantaged in facing barriers to attendance, learning, behaviour and mental health. The DSL should raise awareness of this in college, and work closely with social workers so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes.

7.12.19. Children in Care (CiC) (Previously known as Looked After Children³)

The most common reason for children becoming cared for is as a result of abuse and/or neglect. Staff should understand that children in care (and children who have previously been in care) can be particularly vulnerable.

7.12.20. TGI College follows States of Guernsey guidance set out in '[Promoting the Education of Looked-After Children](#)'. Appropriate staff should have information about a child's looked after status and care arrangements (this includes Alderney/Herm/Sark students resident with a host family). The DSL and DDSL have particular responsibility for promoting the educational achievement of CiC and children previously in care, and should liaise with the DSL and Education Inclusion Services' Education Development Officer (EDO) for Inclusion and CiC, for support and advice as may be necessary.

7.12.21. Domestic Abuse (Operation Encompass)

TGI College is part of Operation Encompass. This is a Police and education early intervention safeguarding partnership which supports children and young people who experience domestic abuse. Operation Encompass means that the Police will share information about domestic abuse incidents with the DSL prior to the start of the next college day when they have been called to a domestic incident. Information is stored in line with all other confidential safeguarding and child protection information.

7.12.22. Private 'Foster' Arrangements

The Committee for Health & Social Care (HSC) has a duty to ensure the well-being of children who are being cared for, outside of HSC arrangements, by someone who is not a close relative or guardian (and a relative or guardian is not living at the same premises), for more than 28 days.

People who look after children like this are required to notify HSC but this might not always happen, often because they don't realise they need to. Most children living in private fostering arrangements remain safe and well, but in some cases safeguarding concerns have been raised. Therefore, if staff become aware that a child may be living in a private fostering arrangement, they should notify the DSL (via ProMonitor: Confidential Comment). The carer should be encouraged to contact HSC directly, but the DSL should also liaise with MASH.

7.12.23. Site Access

There are clear arrangements in place for visitors to TGI College.

These include:

- Visitors must only access the site/building through established entrances
- Signing in/out procedures for visitors (including, for example, volunteers, contractors, visiting support staff)
- A check that the person who has arrived is who was expected, including a check of ID where appropriate
- Issue of a visitor badge (ideally numbered or similar), to be worn while on college premises, badges to be returned prior to leaving the site. Reception staff to

manage the return of badges to ensure any discrepancy can be identified and rectified

- Visitors to be appropriately accompanied by staff (in line with what they are doing, and whether they have had DBS checks, etc.)
- Staff to be aware to challenge unknown adults

7.12.24. Premises Hire

The agreement to hire TGI College facilities requires the hiring person/group to confirm that it has safeguarding policies in place appropriate to the event/activity, and to confirm the event/activity supervisors have appropriate DBS checks.

Appendix 4: Current Post Holders' Names

Principal: Louise Misselke

Designated Safeguarding Lead: Jeff Stuart

Deputy Designated Safeguarding Lead: Ben Bailey

12.0 Appendix 1: Abuse and Neglect

The tables below give an introduction to the different types of abuse and neglect. The potential indicators listed may also arise as a result of conditions/events unrelated to abuse and so are not proof of abuse; however, they may give rise to a concern for closer consideration.

Physical Abuse

Most children collect cuts and bruises from daily life. Accidental injuries normally occur on the front of the body, e.g. on the bony prominences like shins. A person will generally (but not always) fall forwards, and may put their hands out to break a fall. Injuries on the soft areas of the body are more likely to be inflicted intentionally.

Examples of physical abuse include:

- Hitting
- Shaking
- Throwing
- Poisoning
- Burning / scalding
- Suffocating
- Drowning
- A parent/carer fabricating symptoms of or inducing illness in a child

Factors that should arouse concern

- Multiple bruising or bruises and scratches (especially on the head and face)
- Two simultaneous black eyes, with no bruising on the nose or forehead
- Bruises around the neck or behind the ears
- Damage or injury around the mouth
- Clusters of bruises – e.g. fingertip bruising (caused by being grasped)
- Bruises on the back, chest, stomach, buttocks or on the inside of the thighs
- Different age bruises in the same area
- Marks possibly indicating use of an instrument (e.g. linear bruising (stick), parallel bruising (belt), marks of a buckle)
- Bite marks
- Burns or scalds with a clear outline (possibly indicating an instrument or object (e.g. electric fire, cooker, cigarette) or scalds with upward splash marks
- Large number of scars of different ages, particularly if there is also current bruising
- Untreated and/ or unexplained injuries, particularly if they are recurrent

At school, it is normal to ask about a noticeable injury. You must be concerned when:

- No explanation is given
- The explanation given does not match the injury
- The child (or the parent/carer) is secretive or evasive
- There is admission of punishment which appears excessive

You must also be concerned if the child:

- Is reluctant to have parents/carers contacted
- Runs away or shows fear of going home
- Is aggressive
- Flinches when approached or touched
- Is reluctant to undress to change clothing for sport
- Wears long sleeves / long trousers during hot weather
- Is unnaturally compliant in the presence of parents/carers
- Fears medical help
- Exhibits self-harming behaviours
- Shows deterioration in school work
- Has an unexplained pattern of absences (may serve to hide bruises or other physical injuries)

Sexual Abuse

Sexual abuse involves forcing or enticing a child to take part in sexual activities, not necessarily involving violence, whether or not they are aware of what is happening. This might involve:

- Physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing.
- Non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse.

Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Sexual abuse is usually perpetrated by people who are known and trusted by the child, e.g. relatives, family friends, neighbours, babysitters, people working with the child in school, faith settings, clubs or activities. It is usually planned and systematic, and may include 'grooming' of the child in-person or online. Efforts may also be made to ensure potential adult protectors are not suspicious of the abuser.

Recognition may be difficult. There may be no physical signs that are obvious at school, so indications are likely to be behavioural.

<p>Potential physical indicators</p> <ul style="list-style-type: none"> · Tiredness, lethargy · Complaints of genital itching or pain · Wetting or soiling · ‘Love bites’ · Indicators of self-harming behaviours (e.g. deep scratches/cuts on arms, eating disorders) · Phobias or panic attacks · Pregnancy or Sexually Transmitted Infections (STIs) · Unexplained gifts or money <p>There may be other indicators that are not apparent at school.</p>	<p>Potential behavioural indicators</p> <ul style="list-style-type: none"> · Sudden inexplicable changes in behaviour, school performance or school avoidance · Sexual knowledge inappropriate for ages, shown for example in drawings, play, vocabulary · Sexualised behaviour in young children · Sexually provocative behaviour / promiscuity / hinting at sexual activity in older children · Depression / social withdrawal · Overly-compliant behaviour · Acting out, aggressive behaviour · Secretive behaviour · Onset of insecure, clinging behaviour · Tendency to cry easily · Poor trust in significant adults · Regression to younger behaviour, e.g. thumb sucking, playing with discarded toys · Arriving early at school, leaving late, running away from home · Suicide attempts, self-mutilation, self-disgust · Eating disorders · Fear of undressing for PE or similar.
---	--

Emotional Abuse

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve:

- Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person
- Not giving the child opportunities to express their views, deliberately silencing them or making fun of what they say or how they communicate
- Age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning
- Preventing the child from participating in normal social interaction or forming friendships
- Seeing or hearing the ill-treatment of another, e.g. domestic abuse
- Serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger
- Exploitation or corruption of children, encouragement to engage in anti-social behaviour

Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Emotional abuse may be difficult to recognise, as the signs are usually behavioural rather than physical. Signs which may indicate emotional abuse:

<p>Potential developmental issues</p> <ul style="list-style-type: none"> · Delays in physical, mental and emotional development · Poor school performance · Speech disorders · Regressive development (e.g. regresses to a previous developmental stage when they felt safe) <p>Potential social issues</p> <ul style="list-style-type: none"> · Withdrawal from physical contact · Withdrawal from social interaction · Extremes of compliance, passivity and/or aggression/provocation · Insecure, clinging behaviour · Poor social relationships <p>Potential emotional responses</p> <ul style="list-style-type: none"> · Fear of new situations · Inappropriate emotional responses to painful situations · Fear of parents being contacted · Low self esteem · Self-disgust · Unusually fearful of adults · Lack of concentration, restlessness, aimlessness · Extremes of passivity or aggression · Fear of using computers / accessing email / using mobile technologies 	<p>Potential general behavioural indicators</p> <ul style="list-style-type: none"> · Acceptance of punishment that appears excessive · Over-reaction to mistakes · Continual self-deprecation · Refusal to speak · Neurotic behaviour (e.g. rocking, hair-twisting, thumb-sucking) · Self-mutilation, self-harm · Suicide attempts · Drug/alcohol/solvent abuse · Fear of carers · Running away · Compulsive stealing, scavenging e.g. other children's packed lunches · Acting out · Poor trust in significant adults · Regressive behaviour (e.g. wetting) · Sudden speech disorders · Eating disorders · Destructive tendencies · Arriving early at school, leaving late · Frequent lateness or non-attendance at school · Reluctance to use computers or mobile technologies/obsessive use of them
---	---

Neglect

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect of a child may involve a parent/carer failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect a child from physical and emotional harm or danger
- Ensure adequate supervision (including the use of inadequate care-givers)
- Ensure access to appropriate medical care or treatment
- Respond to a child's basic emotional needs

Children who are neglected may develop more slowly than others and may find it hard to make friends and fit in with their peer group. They may also be bullied.

Potential indicators of neglect include:

Potential physical indicators

- Underweight/failure to grow within normal pattern
- General failure to achieve developmental milestones
- Observed lack of appropriate food
- Constant hunger
- Constantly tired, listless, with no clear cause
- Hair loss
- Poor personal hygiene
- Inadequate and / or dirty clothing
- Unsuitable dress for weather
- Untreated medical problems
- Frequently unsupervised

Potential behavioural indicators

- Low self-esteem
- Stealing or scavenging, especially for food
- Poor relationships with peers, isolated
- Destructive tendencies
- Frequent lateness or non-attendance at school
- Missing medical appointments

13.0 Appendix 2: Specific Forms of Abuse and Safeguarding Issues

This appendix is based on issues listed in KCSIE, amended to reflect local legislation and approach. In some circumstances there may currently be little concern about an issue in Guernsey. However, the starting point should be that it **could** happen here.

[Whilst some links to further information are included in the below, [KCSIE 2022](#) includes many others on pages 154-160, organised in categories. These obviously provide information relevant to the England/UK context, and have not been reviewed by Education, but may be of some interest/assistance.]

13.1 Child Abduction and Community Safety Incidents

Unauthorised removal or retention of a minor from a parent or anyone with legal responsibility for the child (**abduction out of jurisdiction, kidnap offences**) can be committed by parents/carers or other family members; by people known but not related to the victim (such as neighbours, friends and acquaintances); and by strangers. (**Police are also able to act in situation where a child subject to a care order is kept away from the community.**)

Staff should be alert to community safety incidents in the vicinity of a school, for example people loitering nearby or unknown adults engaging children in conversation.

As children get older and are granted more independence (for example, as they start walking to school on their own) it is important they are given practical advice on how to keep themselves safe - Guernsey Police can be contacted to assist. It is important that lessons focus on building children's confidence and abilities rather than simply warning them about all strangers. Further information is available at: www.actionagainstabduction.org and www.clevernevergoes.org.

13.2 Children and the Court System

Children are sometimes required to give evidence for crimes committed against them or for crimes they have witnessed. Children may also be involved where child arrangements are made via the family courts, following separation.

Staff should recognise that, whatever the reason, involvement with court matters can be stressful for children.

13.3 Children Missing from Education

All staff should be aware that children going missing, particularly repeatedly, can act as a vital warning sign of a range of safeguarding possibilities. This may include abuse and neglect, which may include sexual abuse or exploitation and can also be a sign of child criminal exploitation. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of honour-based abuse. Early intervention is necessary to identify the existence of any underlying safeguarding risk and to help prevent the risks of a child going missing in future. Staff should be aware of the unauthorised absence and children missing from education procedures.

The ISCP provides additional guidance for when children on the Child Protection Register go missing <http://iscp.gg/article/118072/Missing-Children>

13.4 Children with Family Members in Prison

Staff should be aware that children who have a parent in prison are at a **greater** risk of poor outcomes including poverty, stigma, isolation and poor mental health.

Guernsey Prison works in partnership with other local agencies in relation to safeguarding children affected by parental imprisonment. It provides a number of services under the 'Family Support' pathway, including ways to maintain contact **and encouraging parents in prison to be creative in the ways they can continue to be involved and support their children despite being absent from the home environment.** [Amend or accept the following statement, as applicable, and include any other detail of school approach, as appropriate: Key school staff have completed local 'Hidden Sentence' training to enable them to understand the potential impact of a prisoner's custodial sentence on the wider family/children and better support affected learners.]

13.5 Child Criminal Exploitation (CCE) & Child Sexual Exploitation (CSE)

Both CCE and CSE occur where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal or sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or the threat of violence. The victim may have been exploited even if the activity appears consensual. CCE & CSE does not always involve physical contact; it can also occur through the use of technology.

CCE and CSE can affect both male and female children, and can include children moved (trafficked) for the purpose of exploitation. Children can be exploited by adults (males and females), as individuals or groups. They can also be exploited by other children, who may themselves be experiencing exploitation; where this is the case it is important that the perpetrator is also recognised as a victim.

Children who have been exploited will need extra support to help maintain them in education.

13.5.1 Child Criminal Exploitation (CCE)

CCE could include children being forced to be involved in drug production, being coerced into moving drugs* or money (including in/out of Guernsey), forced to shoplift or pickpocket, or to threaten other young people.

* Staff may be familiar with the term 'County lines', which is used to describe gangs and criminal networks involved in exporting illegal drugs into importing areas (within the UK), using dedicated mobile phone lines or other form of 'deal line'. Children can be targeted/recruited in a number of locations (including schools), or via social media. Children involved in moving drugs may be exposed to techniques as 'plugging', where drugs are concealed internally to avoid detection.

Some of the following can be indicators of CCE:

- Children who appear with unexplained gifts or new possessions
- Children who associate with other young people involved in exploitation

- Children who suffer from changes in emotional well-being
- Children who misuse drugs and alcohol
- Children who go missing for periods of time or regularly come home late
- Children who regularly miss school or education or do not take part in education.

Children can become trapped by this type of exploitation as perpetrators can threaten victims (and their families) with violence, or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm from others. As children involved in criminal exploitation often commit crimes themselves, their vulnerability as victims is not always recognised by adults and professionals, (particularly older children), and they are not treated as victims despite the harm they have experienced.

It is important to note that the experience of girls who are criminally exploited can be very different to that of boys and the indicators may not be the same. However, professionals should be aware that girls are at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

13.5.2 Child Sexual Exploitation (CSE)

CSE is a form of child sexual abuse. CSE can affect any child or young person (male or female) under the age of 18 years, including 16 and 17 year olds who can legally consent to have sex. Some children may not realise they are being exploited e.g. they believe they are in a genuine romantic relationship.

CSE can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse including via the internet. It may occur without the child or young person's immediate knowledge (e.g. through others copying videos or images they have created and posted on social media). The above CCE indicators can also be indicators of CSE, as can:

- Children who have older boyfriends or girlfriends
- Children who suffer from sexually transmitted infections or become pregnant

More information and advice is available at:

<http://iscp.gg/article/150809/Child-Sexual-Exploitation>

<https://www.gov.uk/government/publications/child-sexual-exploitation-definition-and-guide-for-practitioners>

13.6 Modern Slavery

Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including: sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs. Further information on the signs that someone may be a victim of modern slavery is available in English Government Statutory Guidance. Modern slavery: how to identify and support victims - GOV.UK.

13.7 Serious Violence

All staff should be aware of indicators that may signal that children are at risk from, or are involved with, serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs.

Risk factors that increase the likelihood of involvement in serious violence include being male, having been frequently absent or permanently excluded from school, having experienced child maltreatment and having been involved in offending, such as theft or robbery.

13.8 Domestic Abuse

Domestic violence and abuse is: any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. Anyone can be a victim of domestic abuse. The abuse can encompass, but is not limited to: psychological; physical; sexual; financial; and emotional.

Children and young people can be **victims of domestic abuse**. They may see, hear or experience the **effects of domestic abuse at home** where domestic abuse occurs between family members, but also experience it within their own intimate personal relationships (**teenage relationship abuse**). Experiencing domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children and young people – **including impacting their health, well-being, development, and ability to learn**. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

The ISCP provides additional guidance at

<http://iscp.gg/article/118116/Safeguarding-Children-Affected-by-Domestic-Abuse>.

Advice on identifying children who are affected by domestic abuse and how they can be helped is available at

<https://www.nspcc.org.uk/preventing-abuse/child-abuse-and-neglect/domestic-abuse/signs-symptoms-effects/>

Safer – Guernsey domestic abuse charity: <http://safer.gg/>

As noted in the main policy, [XXX] School is part of Operation Encompass (see section 10.11 for more detail).

13.9 Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. Indicators that a family may be at risk of homelessness include household debt, rent arrears, domestic abuse and anti-social behaviour, as well as the family being asked to leave a property.

In most cases school staff will be considering homelessness in the context of children who live with their families, and intervention will be on that basis. However, it should also be recognised in some cases 16 and 17 year olds could be living independently from their parents/carers, for example through their exclusion from the family home, and will require a different level of intervention and support.

Action for Children (Guernsey) provides, amongst other things, support for young people (aged 16-25) with housing and accommodation issues <https://www.facebook.com/AFCguernsey/>

13.10 Honour-Based Abuse (including Female Genital Mutilation and Forced Marriage)

‘Honour-based’ abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing.

All forms of HBA are abuse (regardless of the motivation) and should be handled and escalated as such. If staff have a concern regarding a child that might be at risk of HBA or who has suffered from HBA, they should speak to the SCPO (or deputy). As appropriate, they will activate local safeguarding procedures. Abuse committed in the context of preserving ‘honour’ often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take.

FGM

FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is a form of child abuse with long-lasting harmful consequences. It will be rare for teachers to see visual evidence, and they should not examine learners.

Forced marriage

A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some perpetrators use perceived cultural practices as a way to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

13.11 Preventing Radicalisation

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harms and abuse, protecting children from this risk should be a part of a school or college's safeguarding approach.

- **Extremism** involves holding extreme political or religious views. For example, vocal or active opposition to community values such as democracy, the rule of law, individual liberty and the mutual respect and tolerance of different faiths, beliefs and lifestyles.

- **Radicalisation** refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.

- **Terrorism** is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes with or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability. Similarly, radicalisation can occur through many different methods (such as social media or the internet) and settings (such as within the home).

However, it is possible to protect vulnerable people from extremist ideology and intervene to prevent those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert to changes in children's behaviour, which could indicate that they may be in need of help or protection, with a referral made to the SCPO.

Staff should engage in any appropriate training identified as appropriate by the ISCP/Guernsey Police.

[Educate Against Hate](#) is a UK government website designed to support school teachers and leaders to help them safeguard their students from radicalisation and extremism. The platform provides free information and resources to help school staff identify and address the risks, as well as build resilience to radicalisation.

13.12 Child-on-Child Abuse: Harmful Sexual Behaviour, Sexual Violence and Sexual Harassment

As set out in the main policy document, children can abuse other children – ‘child-on-child abuse’ - and can take many forms. The supplementary information below focuses on harmful sexual behaviour, sexual violence and sexual harassment.

Harmful sexual behaviour

Children’s sexual behaviour exists on a wide continuum, ranging from normal and developmentally expected to inappropriate, problematic, abusive and violent. Problematic, abusive and violent sexual behaviour is developmentally inappropriate and may cause developmental damage. A useful umbrella term is ‘harmful sexual behaviour’ (HSB).

When considering HSB, both ages and the stages of development of the children are critical factors. Sexual behaviour between children can be considered harmful if one of the children is much older, particularly if there is more than two years’ difference or if one of the children is pre-pubescent and the other is not. However, a younger child can abuse an older child, particularly if they have power over them, for example, if the older child is disabled or smaller in stature

HSB can, in some cases, progress on a continuum. Addressing inappropriate behaviour can be an important intervention that helps prevent problematic, abusive and/or violent behaviour in the future. Children displaying HSB have often experienced their own abuse and trauma. It is important that they are offered appropriate support.

Sexual violence and sexual harassment between children in schools and colleges

Sexual violence and sexual harassment can occur between two children of any age (including primary) and sex. It can occur online. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will

be exacerbated if the alleged perpetrator(s) attends the same school. Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and offline (both physical and verbal) and are never acceptable. It is important that all victims are taken seriously and offered appropriate support. Staff should be aware that evidence shows girls, children with SEND and LGBT children are at greater risk.

Staff should be aware of the importance of:

- Making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up
- Not tolerating or dismissing sexual violence or sexual harassment as 'banter', 'part of growing up', 'just having a laugh' or 'boys being boys', and
- Challenging behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them.

What is sexual violence and sexual harassment?

Sexual violence

For the purposes of this document, sexual violence includes:

- **Rape:** A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.
- **Assault by Penetration:** A person (A) commits an offence if: they intentionally penetrate the vagina or anus of another person (B) with a part of their body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.
- **Sexual Assault:** A person (A) commits an offence of sexual assault if: they intentionally touch another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.
- **Sexual Coercion:** A person (A) commits an offence if: they intentionally cause another person (B) to engage in an activity, the activity is sexual, B does not consent to engaging in the activity, and A does not reasonably believe that B consents.

(Definitions in line with the Sexual Offences (Bailiwick of Guernsey) Law, 2020)

What is consent?

Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. Someone consents to vaginal, anal or oral penetration only if they agree by choice to that penetration and has the freedom and capacity to make that choice.

- A child under the age of 13 cannot consent to any sexual activity
- The age of consent is 16
- Sexual intercourse without consent is rape

Sexual harassment

In this document, sexual harassment means 'unwanted conduct of a sexual nature' that can occur online and offline, and in the context of peer on peer sexual harassment. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

It is important that schools and colleges consider sexual harassment in broad terms. Sexual harassment (as set out above) creates a culture that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- Sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names
- Sexual "jokes" or taunting
- Physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes (schools and colleges should be considering when any of this crosses a line into sexual violence - it is important to talk to and consider the experience of the victim)
- Displaying pictures, photos or drawings of a sexual nature, and

- Online sexual harassment. This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence. It may include:
 - § Non-consensual sharing of nude and semi-nude images and videos. (Taking and sharing indecent images of under 16s is an offence under the Sexual Offences (Bailiwick of Guernsey) Law, 2020)
 - § Sharing of unwanted explicit content
 - § Sexualised online bullying
 - § Unwanted sexual comments and messages, including on social media
 - § Sexual exploitation, coercion and threats and
 - § Upskirting.

Upskirting

‘Upskirting’ typically involves taking a picture under a person’s clothing (not necessarily a skirt) without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm. Anyone, of any gender, can be a victim. This falls under ‘Voyeurism’ in the Sexual Offences (Bailiwick of Guernsey) Law, 2020.

The response to a report of sexual violence or sexual harassment

The initial response to a report from a child is important. It is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

Reports of sexual violence and sexual harassment are likely to be complex and require difficult professional decisions to be made, often quickly and under pressure. Pre-planning and effective training provide the foundation for a calm, considered and appropriate response to any reports.

Further detailed advice can be seen in Part 5 of [‘Keeping Children Safe in Education 2022’](#).

13.13 Fabricated or Induced Illness (by Parent/Carer)

This is where a parent/carers makes a child ill, or pretends they are ill. It is a relatively rare form of child abuse with potential for serious harm (physical and emotional).

Parents/carers may:

- Fabricate signs and symptoms of illness, including fabrication of past medical history
- Induce illness by a variety of means
- Falsify documents, hospital charts and records, and specimens of bodily fluids.

Some factors that may indicate that a child may be at risk of harm include:

- Frequent and unexplained absences from school, particularly from PE lessons
- Regular absences to keep a doctor's or a hospital appointment
- Repeated claims by a parent/carer that a child is frequently unwell and requires medical attention for symptoms which, when described, are vague in nature, difficult to diagnose and which staff have not themselves noticed, for example, headaches, tummy aches, dizzy spells, frequent contact with opticians and/or dentists or referrals for second opinions.

More information can be found in [Fabricated or Induced Illness: Safeguarding Children](#).

Appendix 3: Children 'In Need' and 'At Risk'

Under the Children (Guernsey and Alderney) Law 2008:

A child is in need if: (section 23)

- (i) he, or his family, requires the provision of additional services to enable him to achieve or maintain a reasonable standard of health or development,
- (ii) his health or development is likely to be significantly impaired, or further impaired, without the provision of additional services,
- (iii) he is disabled, or
- (iv) he is, or is likely to be, adversely affected by the disability or illness of a parent or another member of his family without the provision of additional services

("Additional services" means services which are additional to the health, social, child care and educational services normally provided by the States to, or in respect of, any family or child)

A child is at risk if there is reasonable cause to believe that^[1] (sections 23b and 35)

- (a) there is, or appears to be, no person able and willing to exercise parental responsibility in such a manner as to provide the child with adequate care, protection, guidance or control, **and**
- (b) at least one of the conditions referred to in subsection (2) is satisfied, in respect of that child.

(2) The conditions for the purpose of subsection (1) are, that on a balance of probabilities

- (a) the child has suffered, or is likely to suffer, significant impairment to his health or development,
- (b) the child has suffered, or is likely to suffer, sexual or physical abuse,
- (c) the child has –
 - (i) misused drugs or alcohol, or
 - (ii) deliberately inhaled a volatile substance,
- (d) the child is exposed, or is likely to be exposed, to moral danger^[2],
- (e) the child –
 - (i) has displayed violent or destructive behaviour and is likely to become a danger, to himself, or others, or
 - (ii) is otherwise beyond parental control,
- (f) the child, being of 12 years of age or more, has committed –
 - (i) a criminal offence, or
 - (ii) what would be a criminal offence if the child had the necessary capacity, or
- (g) the child (being under the upper limit of the compulsory school age) is failing to attend school without good reason.

Appendix 4: Private ‘Foster’ Arrangements

- Private fostering describes certain situations when a child is cared for by people who are neither close family members nor approved foster carers. Privately fostered children are a particularly vulnerable group and the law regulates the arrangements to ensure that such children are safe and properly cared for.
- A care arrangement will be a private fostering arrangement when a child is cared for, and provided with accommodation, by an adult who is not a parent, close relative or legal guardian^[1], for 28 days or more in Guernsey or Alderney. (For children over 16 years, that care must have commenced before the child was 16 years of age). It will also apply to children who are provided with accommodation for a cumulative period of more than three months in at least three separate periods over 12 months where each period is between 7 and 27 days.

- The law^[2] places a duty on individuals who are privately fostering a child to notify the Committee for Health and Social Care (HSC) of that arrangement in advance and a corresponding duty on HSC to satisfy itself as to the wellbeing of that child. Failure to provide the notification is an offence and the individual may be liable to a fine or imprisonment for a term not exceeding six months or to both. HSC has powers to impose conditions and prohibit private fostering arrangements.
- A privately fostered child is not looked after by the States and private foster carers do not hold parental responsibility. Usually a birth parent chooses and arranges a private foster placement. Private fostering situations could involve children being sent to Guernsey or Alderney by birth parents living overseas, children living with a friend's family as a result of separation, divorce or arguments at home, teenagers living with the family of a boyfriend or girlfriend, or children whose parents' work or study involves unsociable hours which make it difficult for them to use ordinary day care or after school care.
- Many private foster carers fail to notify HSC of such arrangements (often because they do not realise they need to). This leaves the children outside of the statutory framework in place to ensure the well-being of such children. Professionals in the education, health and social care fields have a shared responsibility to work together to identify such arrangements and to ensure that any privately fostered children are notified to HSC. If a staff member becomes aware that a child may be living in a private foster arrangement, they should notify the SCPO. The carer should be encouraged to contact HSC direct, but the SCPO should also liaise with MASH. By doing so they may help to ensure that the welfare of the child(ren) concerned is safeguarded and promoted.

Appendix 5: Guide to the Role of School Child Protection Officer (SCPO) / Deputy SCPO

SUMMARY

[The SCPO must be a senior member of the school leadership team. The fact that they hold the SCPO role should be clear in their job description.]

The SCPO takes the lead responsibility for safeguarding and child protection (S&CP) (including online safety) at their school. The role carries a significant level of responsibility and the holder should be given the additional time, funding, training, resources, supervision and support they need to carry out the role effectively.

Whilst the activities of the SCPO can be delegated to appropriately trained 'deputies', the ultimate lead responsibility for S&CP remains with the SCPO, this lead responsibility should not be delegated.

Deputy SCPOs

Where the school has one or more deputy SCPOs, they should be trained to the same standard as the SCPO. The role should be included in their job description.

MAIN DUTIES AND RESPONSIBILITIES

Availability

During term time the SCPO (or a deputy) should always be available during school/college hours, for staff to discuss any safeguarding concerns. Whilst generally speaking the SCPO (or deputy) would be expected to be available in person, it is a matter for individual schools and colleges, working with the SCPO, to consider whether in exceptional circumstances availability via phone or other communication method is acceptable. If an emergency situation arises outside of term-time that requires direct input from school, the SCPO/deputy may be contacted for assistance (for example, about providing a report or suitable attendance at an urgent meeting).

It is a matter for individual schools/colleges and the SCPO to arrange adequate and appropriate cover arrangements for any out of hours/out of term school activities.

Responding to safeguarding concerns and managing referrals

The SCPO/deputy is expected to:

- Refer cases of suspected abuse and neglect to the Multi-Agency Support Hub (MASH) (or social worker if a child already has one), and support other staff who make referrals
- Refer cases where a crime may have been committed to the Police as required
- Liaise direct with other agencies about straight-forward cases for 'Early Help', where there is no suspicion of abuse
- Refer complex Early Help cases to MASH
- Establish a TAC where appropriate
- Monitor any cases where there have been safeguarding concerns and act to seek reconsideration if the child's situation does not seem to be improving

Working with others

The SCPO/deputy is expected to:

- Act as a source of support, advice and expertise for all staff
- Seek advice as required from Education Services' Lead Child Protection Officer (ES LCPO)
- Act as a point of contact with MASH, the Police and relevant other local agencies. This includes acting as the 'Key Adult' for Operation Encompass. **In the case of a Police investigation (where the child is a suspect) the SCPO should be aware that the child should have an 'Appropriate Adult'**
- Liaise with the Headteacher/Principal and ES LCPO to inform them of issues, as appropriate
- As required, liaise with the 'case manager' in cases where there has been an allegation of abuse against a staff member
- Liaise with staff (for example, teachers, pastoral staff, school nurses, IT Technicians, Mental Health Champions and SENCOs) on matters of safety, safeguarding and welfare, and when deciding whether to make a referral
- Promote supportive engagement with parents/carers in respect of safeguarding matters
- Attend, or ensure other appropriate staff attend, child protection conferences, Child in Need (CIN) Meetings, strategy meetings and other inter-agency meetings, as required
- Liaise with other agencies working with a child, sharing information as appropriate to the circumstances and contributing to assessments
- Attend all Island SCPO meetings, to share practice

Training, knowledge and skills

In respect of their own training, knowledge and skills, the SCPO/deputy should:

- Undergo formal training, as determined by the [ISCP](#) and Education. Training should be updated in line with the organisations' recommendations – currently at least every two years
- Refresh their knowledge and skills informally at regular intervals, and at least annually. (For example, through e-bulletins, meeting other safeguarding leads, or reading about and digesting safeguarding developments). The SCPO/deputy should be supported to obtain access to resources and attend any relevant or refresher training courses

Training should give the SCPO/deputy the knowledge and skills to:

- Build a good understanding of their own role, the ISCP Care and Support Framework, processes, procedures (including Child Protection Conferences and CIN Meetings) and responsibilities of other agencies, including the Convenor's Office

- Identify, understand and respond to specific needs that can increase the vulnerability of children, as well as specific harms that can put children at risk
- Understand the lasting impact that adversity and trauma can have, including on children's behaviour, mental health and wellbeing, and what is needed in responding to this in promoting educational outcomes
- Understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college (including children that may be more vulnerable to, for example, online bullying, grooming and radicalisation, such as those with SEND)

In respect of the training, knowledge and skills of others, the SCPO/deputy should:

- Link with Education Services and the ISCP to make sure staff and volunteers complete the specified training and are aware of any training opportunities
- Ensure accurate records are kept for staff and volunteer training, and that training is completed and repeated as required
- At least annually, provide updates to staff and volunteers regarding S&CP matters and arrangements. This should include ensuring that they are satisfied that staff and volunteers have a good understanding of the S&CP policy

Raising Awareness

The SCPO/deputy should:

- Ensure the school/college's S&CP policy and procedures are known to and understood by all staff/volunteers (including introduction at induction for new joiners)
- Ensure the policy is available publicly so parents are aware that referrals about suspected abuse or neglect may be made, and the role of the school or college in this. (For example, school website and other appropriate means.)
- Ensure that other people working on site are aware of S&CP arrangements and actions to take if necessary
- Support staff to consider how safeguarding, welfare and educational outcomes are linked, including to inform the provision of academic and pastoral support
- Raise awareness of the lasting impact of adversity and trauma on education, behaviour, mental health and wellbeing, so that this is understood by senior leaders and staff and reflected in relevant policies (for example behaviour)
- Promote educational outcomes by knowing the welfare, S&CP issues that children in need are experiencing/have experienced, and the impact these might have on children's attendance, engagement and achievement at school. Take lead responsibility for:

- Ensuring the school/college knows which children currently have an allocated social worker and who that is, understanding their academic progress and attainment, and maintaining a culture of high aspirations for them
- Supporting teaching staff to feel confident to provide additional support or reasonable adjustments to help children who are known to Social Services and who have (or have had) an allocated social worker reach their potential, recognising that even when statutory social care intervention has ended, there is still a lasting impact on children’s educational outcomes
- In line with the UNCRC, ensure that there is a culture of listening to children and taking account of their views and feelings, among all staff, and in any measures the school or college may put in place to support, develop and protect them

Understanding the views of children

The SCPO/deputy should:

- Seek the views of children on measures the school/college may put in place to protect them
- Understand the difficulties children may have in approaching staff about their circumstances and consider how to build trusted relationships to help communication

Online safety

Responsibilities are set out in the Online Safety policy. These include, but are not limited to:

- Ensuring effective IT filtering and monitoring systems are in place, and checking and responding appropriately to flagged activity
- Reviewing school online safety and practice

Safeguarding and child protection information (including the child protection file)

The SCPO/deputy is responsible for:

- Understanding the importance of information sharing to support children when there are S&CP matters, and the duty they have within the law
- Being familiar with relevant data protection legislation and guidance, including the Data Protection (Bailiwick of Guernsey) Law 2017, General Data Protection Regulation and the [ISCP Information Sharing Guidance](#)
- Keeping detailed, accurate, up-to-date and secure written records of concerns and referrals, separate to the main learner file, and retaining these in line with Education Services’ retention guidance

- Ensuring that S&CP information is only shared with those who need it, and that sharing is secure and in-line with Education Services’ and States of Guernsey policy and guidance
- Ensuring that when a child with a child protection file leaves school/college, the file is transferred to the new school/college as soon as possible (and within five days for an in-year transfer or within the first five days of the start of a new term). The file should be transferred separately from the main learner file, with secure transit, and confirmation of receipt obtained. The SCPO should also consider if it would be appropriate to share any additional information with the new school/college in advance of a child leaving, to help the new school/college have in place the right support for when the child arrives
- When receiving a child protection file for a new joiner, ensuring key staff at school/college are aware

Quality assurance – Review, monitoring and audit

The SCPO/deputy should:

- Ensure the school/college S&CP policy and procedures are reviewed annually (as a minimum), seeking input from other staff and Education Services as appropriate
- Contribute to the review of other school/college policies with a close link to S&CP
- Keep open safeguarding cases under review, alert to the potential need to re-consider approach if there is no improvement
- Monitor staff compliance with policy and procedures on an ongoing basis
- Complete the annual Education Services/ISCP audit, involving/reporting to other school/college senior leaders (and School Committee) as appropriate)
- Take lead responsibility for remedying any deficiencies and weaknesses identified in S&CP arrangements

[1] grounds exist in respect of that child for compulsory intervention under Part VII

[2] There is no legal definition of ‘moral danger’. Education professionals can contact the Convenor for a general discussion on the circumstances of a case if they have queries as to whether this criterion might apply

[1] Parents, grandparents, brothers, sisters, uncles, aunts (whether full blood, half blood or marriage)

[2] The Child Protection (Guernsey) Law, 1972
